

ACKNOWLEDGEMENT

The authors want to give a kindly thank Prof. Xinping Yan at Key Laboratory of Marine Power Engineering & Technology (Ministry of Transportation), School of Energy and Power Engineering, Wuhan University of Technology, 1178 Heping Avenue, Wuhan 430063, P.R.China. In addition, the authors thank to Prof. Peng Dewei, Lab 408-School of Computer Science and Technology, Wuhan University of Technology, Wuhan 430063, China.
